

Apply for a Twitter developer account

<https://developer.twitter.com/en/apply-for-access>

- Apply for a developer account to access the Twitter developer platform.
- Describe how you will use Twitter APIs.
- Verify your email.
- Wait for review.

Get started with Twitter APIs and tools

Apply for access

All new developers must apply for a developer account to access the Twitter developer platform. Once approved, you can begin to use our new Twitter API v2, or our v1.1 standard and premium APIs.

[Apply for a developer account](#)[Restricted use cases >](#)

Other Twitter products

Enterprise APIs

Our enterprise APIs offer the highest level of access and reliability to those who depend on Twitter data.

[Apply for enterprise access >](#)

Ads APIs

The Ads API gives partners a programmatic way to integrate with the Twitter Ads platform.

[Apply for Ads API access >](#)

Twitter publisher tools

Bring live conversation into your website or app with tools available in Twitter for Websites.

[Visit publisher tools >](#)

This page and certain other Twitter sites place and read third party cookies on your browser that are used for non-essential purposes including targeting of ads. Through these cookies, [Google](#), [LinkedIn](#) and [Demandbase](#) collect personal data about you for their own purposes. [Learn more.](#)

#UseCases

First things first, let's get you the right application.

Pick the use case that most closely relates to the type of work you intend to do while using the Twitter developer platform.

There's some overlap between these so focus on the specifics of your main objective.

Which best describes you?

This is how you intend to use the Twitter developer platform

Standard application

Submit a standard application for access to the Twitter developer platform.

Get started

#TheBasics

To start the application, you'll need to confirm your Twitter @username and the email associated with it. You'll use them to log in to the Developer Platform.

Team accounts

For accounts that need multiple users, create a [team developer account](#) instead.

[Basic info](#) > [Intended use](#) > [Review](#) > [Terms](#)

#ImportantStuff

This part of the application helps us make sure that our data will be handled in accordance with Twitter's Developer Policies.

Our ultimate goal is to keep Twitter a safe and healthy space for public conversation.

What's not allowed

Some activities (like surveillance) are never allowed on Twitter. Take a look at our [restricted uses page](#). Double-check that your intended use is policy compliant.

Automation guidelines

If you plan on enabling any sort of automated activity on the platform (like a bot), be sure to review our automation rules.

Provide thorough answers

We need to fully understand your intended use and if whether it meets our policy guidelines. That's the only way to have your application approved.

So, please include as much detail as possible in your answers.

All fields are required unless marked optional

How will you use the Twitter API or Twitter Data?

In your words

In English, please describe how you plan to use Twitter data and/or APIs. The more detailed the response, the easier it is to review and approve.

I am a student in the Post-Graduate master in Big Data Analytics & Social Mining of the University of Pisa. I am learning Social Media Crawling and I need to practice with the Twitter API for a course. Hence, the applications I am going to develop have the only purpose of learning how to retrieve some tweets from the Streaming and Rest API.

The specifics

Please answer each of the following with as much detail and accuracy as possible. Failure to do so could result in delays to your access to Twitter developer platform or rejected applications.

Are you planning to analyze Twitter data?

Yes

Please describe how you will analyze Twitter data including any analysis of Tweets or Twitter users.

Are you planning to analyze Twitter data?

Yes

Please describe how you will analyze Twitter data including any analysis of Tweets or Twitter users.

Potential projects involving the retrieved data can include simple visualizations such as word clouds or statistics about hashtag usage. There is no specific area of focus. I just need to learn coding and crawling. I will not publish or display tweets or Twitter content, and my applications will not include actions like tweeting, retweeting, liking content, or any other kind of interactions with users.

Will your app use Tweet, Retweet, Like, Follow, or Direct Message functionality?

Yes

Please describe your planned use of these features.

Please be thoughtful and thorough

100

Do you plan to display Tweets or aggregate data about Twitter content outside Twitter?

Yes

#Read&Accept

We've carefully crafted our developer terms to make it readable and accessible. Our aim is to have a healthy and open platform for all.

Once you've read it and agreed, check the box below the agreement and then hit the submit application button on the bottom right.

Developer agreement & policy

broadcasts. You may be subject to additional terms if you exceed this threshold. Additional restrictions on Periscope developer use include:

- You must provide a reasonable user-agent, as described in the Periscope Producer technical documentation, for your service when accessing the Periscope API
- You must honor requests from people to log out of their Periscope account on your service
- You may not provide tools in your service to allow people to circumvent technological protection measures

☒ By clicking on the box, you indicate that you have read and agree to this [Developer Agreement](#) and the [Twitter Developer Policy](#), additionally as it relates to your display of any of the Content, the [Display Requirements](#); as it relates to your use and display of the Twitter Marks, the [Twitter Brand Assets and Guidelines](#); and as it relates to taking automated actions on your account, the [Automation Rules](#). These documents are available in hardcopy upon request to Twitter.
